

**REMARKS**

Reconsideration and allowance of this application is respectfully requested in light of the fact that: no reasoned statement has been proffered to applicant as to why the claims recited by the Examiner should pertain to distinct species; the application had already entered novelty examination before the requirements concerning election of species were issued, and should properly be examined as such; and lastly, claims 2-44 are all dependent claims depending from claim 1, and accordingly would be patentable if independent claim 1 is held patentable. As such, applicant respectfully traverses this requirement.

By the outstanding action, the Examiner has nevertheless required selection of species 1 (A-G) and an additional species listed among species 2 (A-D), 3 (A-D), 4 (A-G), 5 (A-F), 6 (A-H), and 7 (A). In response, the applicant respectfully traverses the Examiner's restriction requirement as indicated above, and elects the purported species "1 (A-G)" designated by the Examiner as corresponding to claims 1-8, and furthermore, the additional species required to be elected is hereby elected to be species "2 (A-D)", corresponding to claims 9-14.

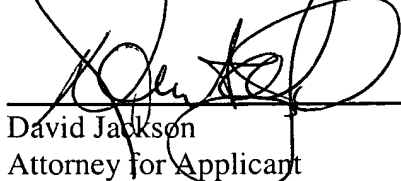

Hence, in view of these remarks, reconsideration and withdrawal of the above-identified restriction is respectfully requested. Additionally, it is respectfully submitted that all the present claims are patentable, and a Notice of Allowance is respectfully requested.
